

Training

Partners for a Healthy Baby Curriculum Training (Live Virtual; In Person)

In this 2-day training, participants learn how to use the Partners curriculum to fidelity; plan effective visits with families from pregnancy through their child's third birthday; promote healthy birth outcomes; and strengthen parenting skills to support optimal bonding and development.

Partners for a Healthy Baby "Let's Explore!" Developmental Activities (Live Virtual)

In this 3-hour training participants learn how to engage parents and guide families through interactive developmental activities on home visits and in group settings.

Partners for a Healthy Baby Workshop for Supervisors & Coaches (Live Virtual; In Person)

This 1-day training outlines three supervisory roles: administrative management, professional development coach, and reflective supervisor. The process for using Partners to fidelity and how to use the Partners Fidelity Tool to monitor and coach home visitors is addressed.

Partners for a Healthy Baby & the Head Start Early Learning Outcomes Framework (Live Virtual)

This 3-hour training connects the Partners curriculum and the Head Start Early Learning Outcomes Framework (ELOF). Participants learn how the Partners curriculum aligns with the ELOF and how it can be used to provide early education services in the home-based option.

Home Visiting 101 (Live Virtual; In Person)

This 1-day training introduces the joys and challenges specific to providing services in the home. Participants learn five roles of a home visitor and strategies for keeping themselves physically and emotionally safe and well. This training is not specific to the Partners curriculum.

Breastfeeding Counselor Course (Live Virtual; In Person)

This 3-day course covering the basics of breastfeeding initiation, duration, and management aligns with Baby-Friendly Hospital Initiative. Partners for Healthy Baby curriculum materials are incorporated to support course content. Continuing education credits for several disciplines including lactation continuing education recognition points (LCERP) are provided.

Doula Training: Using Partners Approach to Systematic Support (Live Virtual; In Person)

This 1-day training equips doulas, family support professionals, and labor support providers with practical, evidence-informed tools to deliver systematic, culturally responsive, and compassionate care to expectant and new families. Grounded in the Partners for a Healthy Baby curriculum, prenatal and early postpartum topics covered include physical, emotional, and mental well-being during pregnancy; labor and birth preparation; newborn care and infant feeding; and postpartum adjustment and family well-being.
